ABOUT ME

Product Manager with **10 years of experience** leading **end-to-end digital products** across **HRTech**, **EdTech**, **ecommerce**, and consulting. In my most recent role, I led the product strategy for a **job marketplace (B2B & B2C)** connecting over **3M candidates** with more than **80K companies** across Spain, Portugal, and Mexico.

My focus is on turning discovery into scalable solutions with measurable business impact. I have led international launches across Spain, Colombia, Ecuador, Peru, and Mexico, and managed senior-level relationships with clients such as **Nestlé**, **Mastercard**, and **Bizum**, collaborating with global partners and vendors in multicultural environments.

As a **hands-on Product Builder**, I combine the autonomy to prototype and ship products independently with the experience of working closely with engineering teams in high-complexity technical environments. I work with **AI**, **data**, and **modern stacks** to ensure technology always translates into real value for users and the business.

CORE SKILLS

Product Strategy · Product Discovery & Delivery · Data-driven Decision Making · AI-powered Products · UX · CRO · Pricing & Go-to-Market · API & Platform Integrations · OKRs & KPIs · Business Development · Stakeholder Management · Growth & Digital Marketing

WORK EXPERIENCE

Product Manager | Turijobs

Barcelona, Spain · September 2021 – May 2026

Turijobs is the leading job board specialized in tourism and hospitality in Spain, operating across Spain, Portugal, and Mexico, connecting over 3M candidates with 80K+ companies.

Role & Responsibilities:

- Lead **end-to-end product development** for both **B2B (employers)** and **B2C (candidates)**, aligning user needs, business objectives, and platform scalability.
- Own the **product strategy, roadmap, discovery, and delivery**, defining **OKRs and KPIs** and driving continuous optimization based on qualitative and quantitative data.
- Lead, alongside the Tech Lead, the **platform refactoring**, improving scalability and reducing technical debt.
- Serve as the team's **data owner**: data extraction with **SQL**, visualization in **Power BI**, and web analytics with **GA4**, **Hotjar**, **BigQuery** and **Looker**, translating data into product decisions, experimentation, and **CRO** across key funnels.
- Contribute, alongside marketing, to growing the candidate base from **1.5M to over 3M registered users**, with sustained growth across core platform metrics: applications per user, job postings published, and total applications.
- Drive **multi-market product strategy**, adapting features, UX, pricing, and positioning for Spain, Portugal, and Mexico.
- Lead, alongside marketing and business teams, a **full product rebrand**, aligning visual identity, messaging, and user experience.
- Work closely with engineering, design, marketing, sales, and customer success to deliver high-impact solutions across the full product lifecycle.

- Manage relationships with **external partners and vendors**, including ATS platforms, aggregators, agencies, and technology partners.

AI & Data Initiatives:

- Develop an **AI-powered job title and skills taxonomy**, enabling multilingual normalization and improving candidate-job matching accuracy.
- Implement **CV parsing** to improve candidate profile classification and relevance in the matching engine.
- Build an **AI-assisted job posting creation and optimization tool**, reducing friction for employers and improving listing quality.
- Launch an **MVP job recommendation chatbot** for candidates, powered by natural language search.
- Develop and ship, with AI assistance, a **CMS** enabling companies to manage and preview their corporate microsites.
- Lead the **normalization and structuring of unstructured job data** from ATS integrations and aggregators, ensuring data quality before publication on the marketplace.

Digital Product Manager | Universidad Europea

Madrid, Spain · July 2020 – September 2021

Part of the Online Business Development unit, focused on driving growth and innovation for the Business School through a data-informed product strategy, pricing, and go-to-market initiatives.

Role & Responsibilities:

- Led market research and competitive analysis across Spain and Latin America (Mexico, Colombia, Ecuador, Peru) to identify and validate new product opportunities, aligning academic programs with labor market trends and business objectives.
- Scaled the online program portfolio from **4 to over 10 titles** across degrees and master's programs, leading the **go-to-market** for each launch with defined objectives, budgets, and KPIs.
- Managed an **annual acquisition budget of €800K**, optimizing channel distribution and return on investment.
- Designed and optimized **program bundles and cross-selling strategies** through **A/B testing** and conversion analysis.
- Contributed to pricing and promotional strategy, aligning value perception, demand elasticity, and enrollment goals.
- Collaborated with marketing and sales teams to improve lead quality, segmentation, and alignment between product and commercial efforts.
- Led the launch and optimization of **landing pages**, campaigns, virtual events, and digital touchpoints focused on conversion and positioning.

Digital Analyst Consultant | Bwow Studio for Bizum

Madrid, Spain · June 2020 – January 2021

Participated in the full redesign of Bizum's website, focused on improving organic performance, user experience, and post-launch measurement through a cross-functional, data-driven approach.

Role & Responsibilities:

- Led the **SEO strategy** and search-driven discovery, including technical audits, competitive analysis, and **keyword research**, defining the site's information architecture and content priorities.
- Collaborated on **copy and UX validation** (titles, CTAs, FAQs, wireframes), ensuring consistency between search intent, usability, and conversion.
- Supported technical decision-making around SEO foundations (URL structure, redirects, canonicalization, structured data).
- Designed and implemented the **analytics and measurement framework** post-launch, building **real-time dashboards** integrating multiple data sources and translating results into iterative improvements.

Founder & Marketing Manager | Restaurante La Tinta

Madrid, Spain · March 2018 – June 2019

Founded and managed a fusion food restaurant in a high-traffic area of Madrid.

Role & Responsibilities:

- Defined brand identity and digital presence strategy, managing channels including **Instagram**, **Google My Business**, **TripAdvisor**, **TheFork**, and **Groupon** to drive visibility and customer acquisition.
- Designed and executed an **events program** (wine tastings, art workshops, and gastronomy photography sessions) as an acquisition and retention lever.
- Managed pricing, cost structure, and profitability, negotiating with suppliers and controlling margins.
- Oversaw daily operations and team management, including reservations, purchasing, inventory, and sales reporting.

Product Owner | Meliware

Caracas, Venezuela · March 2016 – March 2018

Product Owner of an **AI-powered application certified by MercadoLibre**, designed to learn from buyer query patterns and suggest automated responses to recurring questions, reducing the operational load on sellers and improving conversion by responding in seconds.

Role & Responsibilities:

- Led **end-to-end product discovery**, including interviews, focus groups, and user testing with MercadoLibre sellers, translating findings into requirements, roadmap, and prioritization alongside design and development teams.
- Led the development of an **AI-powered automation engine** capable of handling hundreds of daily buyer queries per listing in seconds, improving response time, **conversion rate**, and seller revenue.
- Contributed to the design of a **BI layer**, turning operational data into actionable insights for sellers.

Product Owner | ComWare Digital

Caracas, Venezuela · July 2013 – March 2018

Product Owner at a digital agency focused on UX/UI design, web development, and digital products, working with regional and international clients.

Role & Responsibilities:

- Managed client relationships, leading requirements gathering, solution presentations, and delivery follow-up across design, development, and product projects.
- Led **product discovery** and product definition, including market research, **UX research**, user interviews, prototyping, and testing, translating findings into clear requirements for the team.
- Managed **roadmaps and prioritized backlogs** across multiple simultaneous projects, applying **agile methodologies** and coordinating design, development, marketing, and business teams.
- Contributed to business planning, KPI analysis, and executive presentations at different organizational levels.

Clients: Nestlé, MasterCard, Diageo, Aruba Fashion Week, among others.
